

On March 15th and 20th 2020 : The Saint Paulois will be invited to elect a new municipality team.

JEAN-PAUL FAURE WILL HEAD THE LIST “DEMAIN À SAINT-PAUL”

My findings, which are shared by many :

- *Considering the potential and the international visibility of our commune, I feel a certain deception with respect to the lack of ambition and vision concerning the future of Saint-Paul.*
- *Along with many others, I have noted that the current municipality team is very much out of steam and that the opposition cannot take any credit either, since the beginning of the mandate the opposition has had no serious, credible propositions, no alternative projects, and has systematically been against everything....*

Confronted with this situation, I believe that instead of criticizing, it is better to act. That is why I have decided to run for office March next year. I will be heading a team whose members are extremely competent and motivated.

My background:

I have been living in Saint Paul for the last 10 years. When my wife and I arrived here, we immediately fell under the charm of the place. The deep and rich history of the commune along with its culture is evident in the first glimpse one has when one arrives. We were very warmly welcomed and have made many friends. Some being “recent-Saint Paulois” others coming from old Saint Paul families who have been part of the commune for many generations. And it is due to this context that I myself wish to invest in the future of our commune.

Why be a candidate ?

Encouraged by my friends, I believe that my availability and my experience both in my professional life as well as my involvement in different associations will be of great value in guiding and managing the municipal team, thus giving a new elan to the future development of Saint-Paul.

What Program ?

The steps I wish to undertake will be simple and structured. I am supported by a team of 12 people who represent a wide spectrum of competencies and hence they are extremely representative of the population living in Saint-Paul. These people have been chosen thanks to their skills and expertise. These people all love Saint-Paul and we have all been working together over the last few months to define our vision of “Demain à Saint Paul”. This vision which you will find on the back of this page is the framework for our program which is currently being written. Our final propositions will be shared with you in September.

How are we going to implement our program ?

Our program will be implemented by following a very clear and methodical framework, where each person involved will have their own very precise role. Following this established program the elected representatives will prioritize and make the appropriate decisions, whilst the municipal employees will have the crucial and very consequent role of implementing these tasks. It is with this type of functioning that each person can produce their best results. The greatest benefits for all the community will come about by having the entire municipal team, that is the elected representatives and administrative staff working closely together along with the local population.

An apolitical list

Personally I am not and have never been a member of a political party. Our list is non-political. I do not believe that it is in the interest of our commune to be influenced by the ideas of any specific political party. Our list represents a large spectrum of the commune. The governing of our future municipal team will be clear and transparent, based on values agreed upon by each and every member.

We are not starting from the beginning, however there is much to be done. We have no intention of “wiping the slate” clean. We will build upon those good, existing foundations. Our objective for the commune is to raise the bar higher, applying considerable more rigor and ambition for our commune.

**Our goal is simple : A
better life !**

DEMAIN À SAINT-PAUL !

THE TEAM'S VALUES

- . Integrity**
- . Team Spirit**

- . To be Respectful and Attentive to the Needs**
- . Efficient and Professional**
- . Be Rigorous and Thorough**

OUR VISION FOR SAINT-PAUL

A community where it is exceedingly agreeable to live due to the quality of the environment and having local services easily accessible for all the inhabitants.

A commune where information is circulated easily between the local administration and its inhabitants who will be regularly consulted in a respectful and responsible manner on the major issues.

A municipality which will manage with rigor and economic efficiency the public funding. Operational spending will be controlled in order to not transmit an unsupportable debt to our children, but at the same time undertaking the necessary actions to have sufficient resources so as to invest and prepare for the future.

An economically solid commune whose principal income is based on cultural tourism. The commune will help bring about the necessary development in order to attract high spending visitors (it is thanks to the contributions made by the tourists that the commune is able to keep local taxes very low compared to neighboring communes)

A supportive commune to its inhabitants in case of difficulties they may face, which will take care of the welfare of the elderly and also offer a number of activities, both extra curriculare and sportive for the children, essential for the overall development of their personal well being.

A commune which protects its magnificent environment by taking the necessary precautions against potential naturel risks (floods, forest fires...) as well as undertaking the required works to protect the local patrimony

An exceptional commune : A prime destination for cultural tourism with a historical and artistic heritage without equivalent. The village which focalizes on offering a high quality welcome to the tourists, however a village which is neither a museum nor a provincial “Disneyland”. Where a global and coherent political culture will coordinate the activities of the various associations along with those relevant to the municipality.

Share with us your suggestions and ideas

- **By email** : jpf.demainasaintpaul@gmail.com
- **Or directly by telephone** : 07 85 35 38 61
- **Or else at a meeting or an event in Saint Paul**
